

Join our Team as Junior Research Consultant (m/f)

(Consultative Market Research and Analytics)

FactWorks is an international market research and analytics company with offices in Berlin and San Francisco and an academic connection to the Business School at the University of Geneva. We combine state-of-the-art market research methods and industry expertise with years of consulting experience to help our clients make successful marketing and management decisions.

FactWorks is currently in a growth phase, and we are looking for additional team members to join us in our Berlin location.

What you can expect

We offer you an exciting and challenging work environment as a **Junior Research Consultant** (m/f; full-time) in a permanent position in **Berlin**. You will join an experienced research team and work on national as well as multi-country projects.

The **range of your assignments** will depend on your prior experience and knowledge, and typically will include collaborative work in all project phases:

- Planning and implementing quantitative research
- Data analysis and interpretation
- Conceptualizing and creating results reports and presenting to clients

Moreover, we offer ...

- An attractive career development path
- Exciting projects with a variety of clients and industries
- Team spirit
- Ongoing learning through direct collaboration with experienced team members and regular training events
- The opportunity to spend time working at our office in San Mateo
- A competitive compensation

What we're looking for

You have completed your studies in one of the following areas with a high GPA / very good grades: Economics or business, statistics, math, or engineering. Preferably you also have some practical experience in market research (qualitative or quantitative), analytics or client consulting. Independent of your age, you enjoy working in an innovative and dynamic team, and you are enthusiastic about empirical research.

We expect the following qualifications:

- Very good knowledge of statistics and experience with statistics software (like SPSS or R)
- Passion for performing analysis and conducting primary research
- An efficient and conscientious as well as detail-oriented approach
- Considerable experience with MS Office applications, particularly in PowerPoint, Excel and Word
- At least basic understanding of German

We consider experience with multivariate analysis techniques (e.g., cluster analysis, multiple regression) or advanced statistical models (e.g., mixture models, SEM, Bayesian analysis) a bonus.

We consider your personal development the basis for our growth. Besides competitive compensation you will find that FactWorks' culture is based on openness, fairness and fun at work. That includes ...

 Newest hard- and software	 Advanced internal and external trainings	 English communication training	 Flexible working hours	 USA-option	 Company pension plan	 WFH-option	 Sabbatical-option
